

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions and listings of claims in the application:

1-102. (Cancelled).

103. (Currently Amended) A non-therapeutic process for obtaining a uniform and/or smooth and/or separating makeup result on ~~keratin fiber~~eyelashes comprising applying to the eyelashes a composition comprising, in a cosmetically acceptable medium, at least one wax having a tack of greater than or equal to 0.7 N.s and a hardness of less than or equal to 3.5 MPa, and

wherein the at least one wax is a compound of formula (I):

wherein n is an integer ranging from 18 to 38.

104. (Cancelled).

105. (Cancelled).

106. (New) The non-therapeutic process according to Claim 103, wherein the at least one wax has a tack ranging from 0.7 N.s to 30 N.s.

107. (New) The non-therapeutic process according to Claim 106, wherein the at least one wax has a tack of greater than or equal to 1 N.s.

108. (New) The non-therapeutic process according to Claim 107, wherein the at least one wax has a tack ranging from 1 N.s to 20 N.s.

109. (New) The non-therapeutic process according to Claim 108, wherein the at least one wax has a tack of greater than or equal to 2 N.s.

110. (New) The non-therapeutic process according to Claim 109, wherein the at least one wax has a tack ranging from 2 N.s to 10 N.s.

111. (New) The non-therapeutic process according to Claim 103, wherein the at least one wax has a hardness ranging from 0.01 to 3.5 MPa.

112. (New) The non-therapeutic process according to Claim 111, wherein the at least one wax has a hardness ranging from 0.05 MPa to 3 MPa

113. (New) The non-therapeutic process according to Claim 112, wherein the at least one wax has a hardness ranging from 0.1 MPa to 2.5 MPa.

114. (New) The non-therapeutic process according to Claim 103, wherein the at least one wax is present in an amount ranging from 0.5% to 60% by weight, relative to the total weight of the composition.

115. (New) The non-therapeutic process according to Claim 114, wherein the at least one wax is present in an amount ranging from 5% to 50% by weight, relative to the total weight of the composition.

116. (New) The non-therapeutic process according to Claim 115, wherein the at least one wax is present in an amount ranging from 10% to 40% by weight, relative to the total weight of the composition.

117. (New) The non-therapeutic process according to Claim 116, wherein the at least one wax is present in an amount greater than 25% by weight, relative to the total weight of the composition.

118. (New) The non-therapeutic process according to Claim 117, wherein the at least one wax is present in an amount greater than 27% by weight, relative to the total weight of the composition.

119. (New) The non-therapeutic process according to Claim 118, wherein the at least one wax is present in an amount greater than 28% by weight, relative to the total weight of the composition.

120. (New) The non-therapeutic process according to Claim 119, wherein the at least one wax is present in an amount greater than 30% by weight, relative to the total weight of the composition.

121. (New) The non-therapeutic process according to Claim 103, wherein the composition further comprises at least one additional wax having a hardness of greater than or equal to 6 MPa.

122. (New) The non-therapeutic process according to Claim 121, wherein the at least one additional wax has a hardness ranging from 6 MPa to 30 MPa.

123. (New) The non-therapeutic process according to Claim 122, wherein the at least one additional wax has a hardness ranging from 7 MPa to 25 MPa.

124. (New) The non-therapeutic process according to Claim 123, wherein the at least one additional wax has a hardness ranging from 8 MPa to 25 MPa.

125. (New) The non-therapeutic process according to Claim 124, wherein the at least one additional wax has a hardness ranging from 9 to 20 MPa.

126. (New) The non-therapeutic process according to Claim 125, wherein the at least one additional wax has a hardness ranging from 10 MPa to 20 MPa.

127. (New) The non-therapeutic process according to Claim 121, wherein the at least one additional wax is chosen from carnauba wax, polyethylene waxes, candelilla wax, hydrogenated jojoba oil, bis(1,1,1-trimethylolpropane) tetrastearate, and a wax obtained by hydrogenation of olive oil esterified with stearyl alcohol.

128. (New) The non-therapeutic process according to Claim 121, wherein the at least one additional wax is present in an amount ranging from 0.1% to 30% by weight, relative to the total weight of the composition.

129. (New) The non-therapeutic process according to Claim 128, wherein the at least one additional wax is present in an amount ranging from 1% to 20% by weight, relative to the total weight of the composition.

130. (New) The non-therapeutic process according to Claim 129, wherein the at least one additional wax is present in an amount ranging from 2% to 10% by weight, relative to the total weight of the composition.

131. (New) The non-therapeutic process according to Claim 103, wherein the composition further comprises an aqueous phase.

132. (New) The non-therapeutic process according to Claim 131, wherein the aqueous phase is chosen from aqueous phases formed from water and aqueous phases formed from a mixture of water and water-miscible organic solvent.

133. (New) The non-therapeutic process according to Claim 132, wherein the water-miscible organic solvent is chosen from lower monoalcohols comprising from 1 to

5 carbon atoms, glycols comprising from 2 to 8 carbon atoms, C₃-C₄ ketones, and C₂-C₄ aldehydes.

134. (New) The non-therapeutic process according to Claim 132, wherein the aqueous phase is present in an amount ranging from 1% to 95% by weight, relative to the total weight of the composition.

135. (New) The non-therapeutic process according to Claim 134, wherein the aqueous phase is present in an amount ranging from 3% to 80% by weight, relative to the total weight of the composition.

136. (New) The non-therapeutic process according to Claim 135, wherein the aqueous phase is present in an amount ranging from 5% to 60% by weight, relative to the total weight of the composition.

137. (New) The non-therapeutic process according to Claim 103, wherein the composition further comprises at least one volatile oil.

138. (New) The non-therapeutic process according to Claim 137, wherein the at least one volatile oil is chosen from hydrocarbon-based oils and silicone oils.

139. (New) The non-therapeutic process according to Claim 137, wherein the at least one volatile oil is present in an amount ranging from 0.1% to 98% by weight, relative to the total weight of the composition.

140. (New) The non-therapeutic process according to Claim 139, wherein the at least one volatile oil is present in an amount ranging from 1% to 65% by weight, relative to the total weight of the composition.

141. (New) The non-therapeutic process according to Claim 103, wherein the composition further comprises at least one non-volatile oil.

142. (New) The non-therapeutic process according to Claim 141, wherein the at least one non-volatile oil is present in an amount ranging from 0.1% to 30% by weight, relative to the total weight of the composition.

143. (New) The non-therapeutic process according to Claim 142, wherein the at least one non-volatile oil is present in an amount ranging from 0.1% to 20% by weight, relative to the total weight of the composition.

144. (New) The non-therapeutic process according to Claim 143, wherein the at least one non-volatile oil is present in an amount ranging from 0.1% to 10% by weight, relative to the total weight of the composition.

145. (New) The non-therapeutic process according to Claim 103, wherein the composition further comprises at least one film-forming polymer.

146. (New) The non-therapeutic process according to Claim 145, wherein the at least one film-forming polymer is present in a solids content ranging from 0.1% to 60% by weight, relative to the total weight of the composition.

147. (New) The non-therapeutic process according to Claim 146, wherein the at least one film-forming polymer is present in a solids content ranging from 0.5% to 40% by weight, relative to the total weight of the composition.

148. (New) The non-therapeutic process according to Claim 147, wherein the at least one film-forming polymer is present in a solids content ranging from 1% to 30% by weight, relative to the total weight of the composition.

149. (New) The non-therapeutic process according to Claim 103, wherein the composition further comprises at least one additional wax.

150. (New) The non-therapeutic process according to Claim 149, wherein the at least one additional wax is present in the composition in an amount ranging from 0.1% to 50% by weight, relative to the total weight of the composition.

151. (New) The non-therapeutic process according to Claim 150, wherein the at least one additional wax is present in the composition in an amount ranging from 0.5% to 30% by weight, relative to the total weight of the composition.

152. (New) The non-therapeutic process according to Claim 151, wherein the at least one additional wax is present in the composition in an amount ranging from 1% to 20% by weight, relative to the total weight of the composition.

153. (New) The non-therapeutic process according to Claim 103, wherein the composition further comprises at least one surfactant.

154. (New) The non-therapeutic process according to Claim 103, wherein the composition further comprises at least one additive chosen from dyestuffs, antioxidants, fillers, pasty fatty substances, preserving agents, fragrances, neutralizers, thickeners, vitamins, coalescence agents, and plasticizers.

155. (New) The non-therapeutic process according to Claim 103, wherein the composition does not comprise a UV-screening agent.

156. (New) The non-therapeutic process according to Claim 103, wherein the composition is in the form of a mascara.
